TITLE : EMBLEM FOR INFORMING CHANGE
 OF BEDCLOTHES AND
 NIGHTCLOTHES

ABSTRACT : PROBLEM TO BE SOLVED: To properly change bedclothes and nightclothes at the nursing of a sick person, by making the bedclothes and nightclothes discolored by the sensitivity to the humidity, and visually detecting the wetness of the same.

SOLUTION: An emblem is removably attached to a bedclothes and nightclothes by an adhesive tape, a hook, a button, a magic tape or the like, so that it can be removed when the bedclothes and the nightclothes are washed, and can be attached to the other bedclothes and nightclothes when they are changed. The emblem is formed by cloth, paper or the like which is mixed, coated or impregnated with a conventional agent (such as blue silica gel discolored from blue in dry to red in wet, or the like), which discolored when it senses the humidity, so that it discolored corresponding to the wetness of the bedclothes and the nightclothes. The emblem is attached to a breast area A of the nightclothes, or an armhole area B or a back area C which are often in a sweat, or is attached to a pillow cover D and B bed sheet E.
